The continued success of agriculture in Alabama depends on how well we educate the next generation of farmers and Alabama is blessed with strong youth organizations such as the Future Farmers of America and the Cooperative Extension's 4-H program to support this transition. Not only are these organizations vital in training our youth how to become successful farmers, they are essential in teaching our children the importance of where their food and fiber comes from.

For many years, these organizations have effectively prepared our young people for additional educational opportunities in our agri-science high school programs and for agricultural degrees offered by Alabama A&M, Auburn, and Tuskegee Universities. The training received from these excellent universities has produced exceptional farmers as well as highly regarded professionals in research and business.

As the Commissioner of Agriculture and Industries in Alabama, I support the Alabama agri-science professionals who work as advisors and educators to our youth and I am proud of their accomplishments. And I am especially proud of our young people who've made a commitment to agriculture despite all of the challenges it represents. It is through their commitment and dedication that the strong farming legacy in Alabama will continue.

Ron Sparks
Commissioner

My father was born in 1929, the same year as the stock market crash and the year many consider to be the start of the great depression. Despite the difficult times, my father managed to acquire a calf for his 4-H project and the money he realized from the sale of that calf funded a trip to Florida to visit his cousins. This changed his life. The Cooperative Extension Service's 4-H clubs along with other youth oriented agricultural organizations such as the Future Farmers of America have changed the lives of thousands of our state's young people by teaching them the value of hard work and the importance of agriculture. Educating our youth not only benefits Alabama by producing competent farmers, it also creates an awareness and appreciation among its citizens of the food they eat and the clothes they wear.

Once again, as the director for the Alabama Field Office, USDA/NASS, I want to thank our field and telephone enumerators for doing an outstanding job always under tight time constraints. Without their dedication and commitment, the data in this bulletin would not exist. And once again I want to thank the office staff for compiling another excellent bulletin.

Finally, I want to thank the farmers in Alabama for taking the time out from of their busy schedules to respond to our surveys. Your responses ensure that the *Alabama Agricultural Statistics Bulletin* is an accurate source of information as well as your voice to tell the public who you are and what you do.

Bill Weaver
Director

State Highlights for 2009-2010:

- Total farm receipts were over \$4.75 billion for the year. (excluding forestry)
- Cash receipts from crops, livestock and poultry totaled \$4.22 billion, versus \$4.50 billion the previous year.
- The top five farm commodities for cash receipts were: (1) poultry, (2) cattle and calves, (3) greenhouse, sod, and nursery products, (4) soybeans and (5) cotton. Together they make up 86 percent of the total commodity receipts.
- Livestock and poultry accounted for 79% of the commodity receipts and crops the other 21%.
- Poultry made up 67 percent of the cash receipts for all commodities (excluding forestry).
- Alabama ranked 3rd in the U.S. in broiler production with marketings of 1.00 billion birds.
- Greenhouse, sod, and nursery receipts totaled \$255.3 million ranking Alabama 19th in the nation.
- Laying flocks produced 2.11 billion eggs to rank 14th in egg production.
- Cattle inventory on January 1, 2010 was 1.28 million head and the state ranked 24th nationally.
- Catfish sales amounted to \$90.7 million. Alabama ranked second behind Mississippi in sales.
- Principal acreages for crops were: corn (280,000), cotton (255,000), peanuts (152,000), soybeans (440,000).
- Alabama ranked 3rd in peanuts and 10th in cotton production.
- The state was 5th in pecan production and 18th in peach.

Alabama's Rank Among States: Crop Production, Livestock, and Poultry 2009

Crops Review 2009

Weather once again played a major role during the 2009 crop year. Alabama saw excessive rainfall in the spring, a dry summer, and heavy rains in the fall and winter. Despite the wet planting season, planted acreage for the four major crops (corn, cotton, peanuts, and soybeans) totaled 1,130,000 acres, an increase of 25,000 acres from 2008. As of June 6, 2009, the average crop condition for corn, cotton, peanuts, and soybeans was 11 percent fair, 84 percent good, and 6 percent excellent. Soil moisture condition was rated 85 percent adequate and 9 percent surplus. Harvesting of fall crops were delayed because of the persistent rains, with some cotton being harvested after the first of the New Year.

Corn planted acres were forecast at 260,000 acres, down 7 percent from 2008. Corn conditions in early June showed 90 percent mostly fair to good conditions. The crop had good stands and growers expecting record yields. The final corn acreage increased to 280,000 planted acres, up 20,000 acres from 2008. Producers harvested 250,000 acres for grain with a yield of 108 bushels per acre. Total grain production grew from 24.4 million bushels in 2008 to 27.0 million bushels in 2009.

Cotton planted acres were forecast in March at 280,000 acres, a 3 percent decrease from 2008. Wet weather delayed planting in some areas resulting in a late crop in 2009. The cotton crop was at 90 percent planted in early June with the condition at 95 percent mostly fair to good. Final cotton planted acres were estimated at 255,000 acres. The end of season cotton production was estimated at 345,000 bales from 248,000 harvested acres. Yield for the 2009 crop was 668 pounds, down 119 pounds from the previous year.

Peanut planted acres in 2009 were estimated at 155,000 acres and remained unchanged at the end of the season. Planting was delayed by the wet conditions with only 77 percent of the crop planted in early June as compared to a 5 year average of 94 percent. However, peanut conditions in early June showed 75 percent of the crop in good condition. Peanuts yielded 3,100 pounds per acre, down from the previous year record of 3,500 pounds. Farmers harvested 152,000 acres and produced 471.2 million pounds of peanuts in 2009. Similar to other crops, late planted peanuts suffered from the wet conditions at harvest.

Soybean planted acres were at 440,000 acres, up 22 percent from 2008. Conditions for the soybean crop were 97 percent in mostly in fair to good condition. Soybean production totaled 17.2 million bushels from 430,000 harvested acres, an increase of 40 percent from the previous year. Soybeans set a record yield at 40 bushels per acre.

Wheat seeded acres were estimated at 220,000 acres, down slightly from 2008. Harvested acres were estimated at 180,000 acres. Wheat yield was 55 bushels per acre which produced 9.9 million total bushels.

Total **hay stocks** for December 2009 increased to 1.70 million tons, up 160,000 tons from December 2008. **Hay** yielded 2.4 tons per acre, up from the 2.2 tons per acre produced in 2008. Hay production totaled 1.92 million tons of hay harvested from 800,000 acres, a decrease of 100,000 acres from the previous year.

Sweet potato production totaled 391,000 pounds, a decrease of 47,000 pounds from 2008.

Normal Crop Progress

Crop	Planting Begins	Planting Ends	Harvest Begins	Harvest Ends
Corn	Mid-March	Mid-May	Early August	Early Oct
Cotton	Early April	Mid-June	Early September	Mid-December
Hay, first Cutting	---	---	Early May	Mid-July
Peaches	---	---	Mid-May	Mid-July
Peanuts	Mid-April	Mid-June	Early September	Early November
Pecans	---	---	Early October	Mid-December
Spring Potatoes	Mid-January	Mid-March	Early May	Early July
Summer Potatoes	Early March	Early April	Early July	Late August
Sweet Potatoes (South)	Mid-March	Late June	Mid-July	Early-November
Sweet Potatoes (North)	Mid-May	Early July	Mid-September	Late October
Soybeans	Mid-April	Early July	Early September	Mid-December
Wheat	Early October	Late-November	Mid-May	Mid-July

1/ Production and value are based on utilized production.

Livestock Review 2009

On January 1, 2010, 1.28 million head of **cattle and calves** were on farms in Alabama with cash receipts that totaled \$308.3 million. There was a 1 percent increase in the number of cattle and calves marketed. Prices received by Alabama producers during 2009 decreased to \$67.20 per cwt for cattle and \$88.50 for calves. **Beef cow** inventory slightly increased to 669,000 head and **beef cow replacement heifers**, remained at 95,000 head. There were 11,000 **milk cows** in Alabama dairy herds, which was 8 percent lower than the previous year. Milk produced in the State totaled 164 million pounds in 2009, down 11 percent from the previous year. Milk per cow averaged 14,909 pounds. Prices received for milk was \$15.60 in 2009. Alabama cash receipts from milk decreased 36 percent to \$25.4 million. All **hogs and pigs** on hand December 1, 2009 numbered 140,000 head. The number of **breeding hogs** dropped to 16,000 and total **market hogs** decreased to 124,000; and 32,000 **sows** farrowed 271,000 pigs in 2009. The average number of pigs per litter was 8.47, compared with 8.93 a year ago. Cash receipts from hogs and pigs were \$35.32 million and the average price received per cwt was \$41.70.

Sales of **catfish** in Alabama decreased 3 percent to \$90.7 million during 2009. **Honey production** in 2009 totaled 441,000 pounds. There were 9,000 colonies producing honey in 2009. Yield per colony averaged 49 pounds, down 17 pounds from a year earlier. The average price per pound was 182 cents, down 8 cents from a year ago.

Livestock and Poultry Receipts, 2009

Commodity	Receipts \$	Pct of Total
Broilers	2,519.30 mil	75.5
Cattle & Calves	308.29 mil	9.3
Eggs	281.04 mil	8.4
Catfish	90.69 mil	2.7
Other Lvstk and Poultry	75.08 mil	2.3
Hogs	35.32 mil	1.1
Dairy	25.43 mil	0.7
Lvstk and Poultry, Total	3,335.2 mil	100.0

Cash receipts for Alabama's livestock and poultry production totaled \$3.34 billion for 2009. Receipts for broilers and other poultry & egg products were \$2.82 billion, while cattle, calf and hog receipts were \$343.61 million. Catfish receipts totaled \$90.7 million for 2009.

Catfish Water Surface Acres, 2010

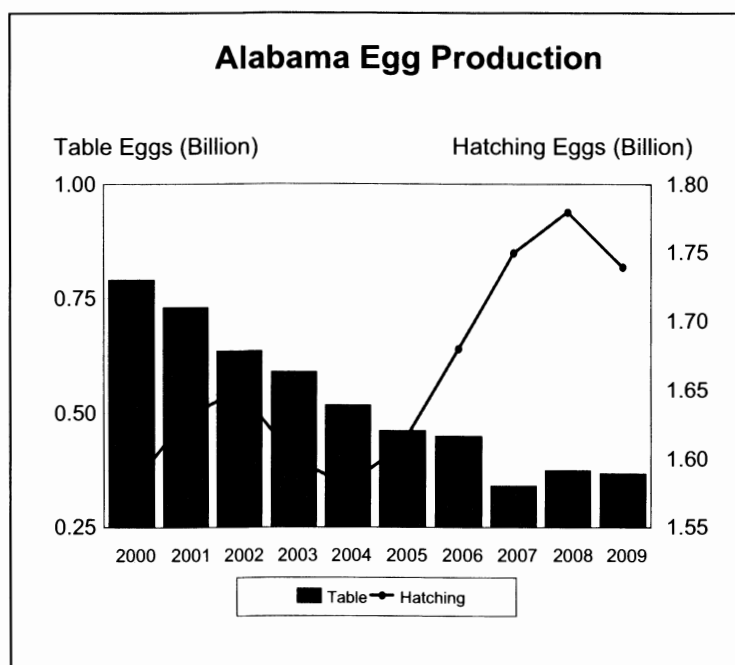

Alabama **broiler** producers marketed 1,002.3 million birds during the 2009 marketing year, a 6 percent decrease from the previous year. Cullman was the leading broiler county, followed by DeKalb, Marshall, and Coffee. Cash receipts amounted to \$2.52 billion, down 6 percent from 2008. Alabama ranked third nationally in broiler production behind Georgia and Arkansas. **Commercial broiler hatcheries** in Alabama hatched 1.28 billion chicks for the period October 1, 2008 through September 30, 2009, down 8 percent from the previous year. Alabama hatcheries shipped 236.2 million broiler-type chicks to other states, including 46.5 million to Mississippi and 116.4 million to Georgia. Egg-type hatchery data are not published to avoid disclosing individual operations.

During 2009, Alabama's laying flocks produced 2.11 billion **eggs**, down 2 percent from the previous year. Cash receipts from eggs were \$281.0 million, down 6 percent from the previous year. Alabama ranked 14th nationally in egg production. There were 9.03 million **layers** 20 weeks old and older on hand December 1, 2009. Cullman County had the largest layer inventory, followed by DeKalb, Randolph and Marshall counties.

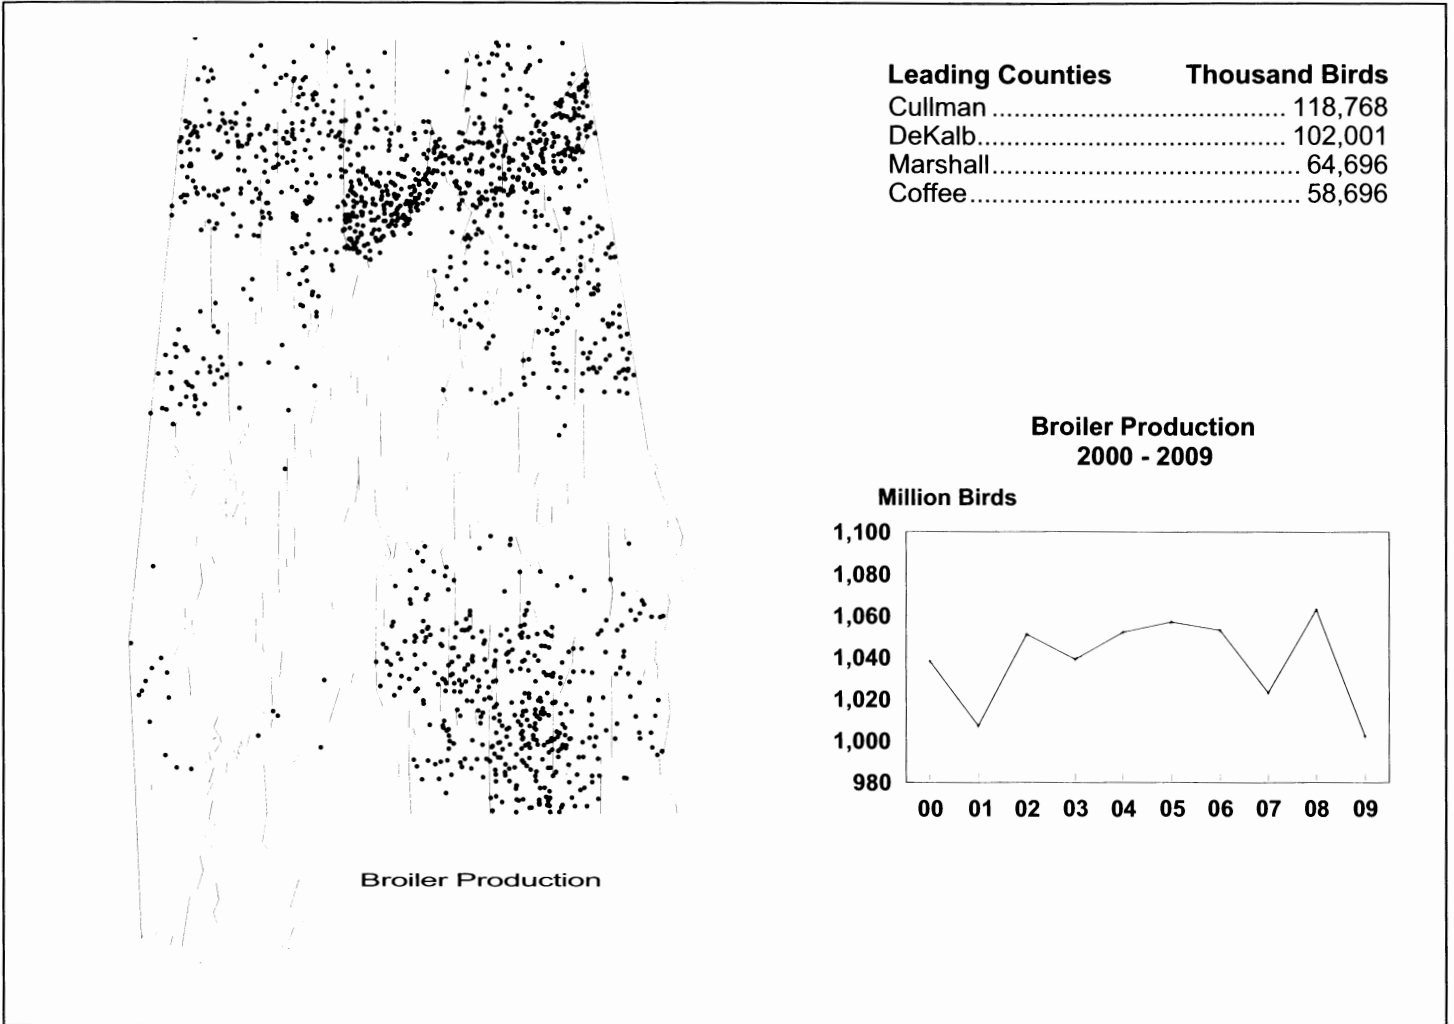

Poultry Facts

- ✗ A cockerel is a male chicken under one year of age; cock or a rooster is a male more than one year old; pullet is a female under one year, and a hen is a female over one year of age
- ✗ A broiler or fryer is a young meat-type chicken that can be cooked tender by broiling or frying and usually weighing between 2 ½ and 3 ½ pounds
- ✗ A roaster is a young meat type chicken that can be cooked tender by roasting and usually weighing 4 pounds or more
- ✗ Laying hens will start to lay eggs at about 20 weeks of age

1/ Marketing year average prices are weighted prices for commodities sold during the marketing year. They represent average prices received by farmers at point of first sale for all grades and qualities.

2/ Unit change in 2002 from ct/lb to \$/ton.

3/ Program discontinued in Alabama.

Cash Receipts Review 2009

Total Farm Receipts for 2009 totaled \$4.75 billion, a decrease of \$378 million (7 percent) from the previous year. These receipts included returns for livestock and poultry, crops, government agricultural payments, and other farm related income.

Receipts for all Agricultural Commodities included \$3.34 billion for Livestock and Poultry and \$882.8 million for crops. Poultry receipts made up 67 percent of the total cash receipts for all commodities. Receipts for the year were down in **livestock, poultry, most crops, greenhouse and nursery** commodities from the previous year.

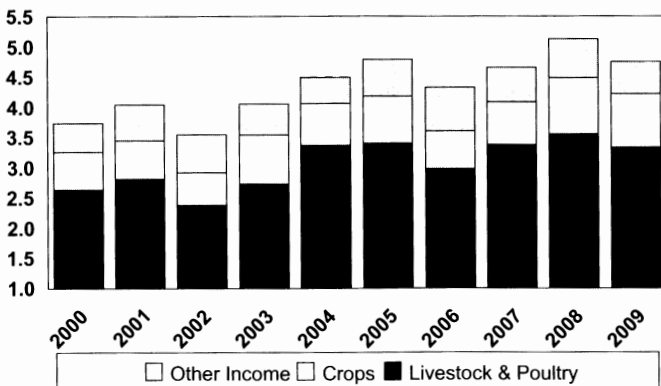

Broilers continued to lead the way as Alabama's #1 agricultural commodity with receipts of \$2.52 billion, down 6 percent from the previous year. Receipts for **Eggs** amounted to \$281.0 million compared with \$298.6 million in 2008. **Cattle and Calves** contributed \$308.3 million in sales, down 7 percent from a year earlier. **Greenhouse, Sod and Nursery** returned \$255.3 million, while **Soybeans** were up 67 percent to \$146.9 million in receipts.

TOTAL FARM RECEIPTS: LEADING COUNTIES, 2009

ALABAMA FARM RECEIPTS 2000 - 2009

Bil Dollars

TOTAL FARM RECEIPTS - 2009 Percents By Commodity

*These 12 commodities accounted for 86% of Total Farm Receipts.

For **counties with limited production** of a specific commodity, cash receipts (starting on page 41) for that commodity are not published, but are included in the county's Total Farm Receipts. *USDA's Farm Service Agency (FSA)* supplied information on **government payments**. **Other farm income** includes money received for machine hire and custom work, custom feeding fees, and other farm business-related income. These receipts are not published separately but are included in each county's Total Farm Receipts.

Reports Issued by the Alabama Agricultural Statistics Service

<p>Alabama Farm News</p> <p><i>A report containing statistics for a variety of commodities produced in Alabama and the Nation. Size of inventory, acreages, yields, production, and prices comprise the majority of the statistics.</i></p>	<p>Quarterly</p>
<p>Crop Weather Report</p> <p><i>Crop condition and progress are reported during the growing season. Soil moisture supplies and other weather related information are included in the report.</i></p>	<p>Weekly: Apr - Nov</p>
<p>Broilers</p> <p><i>Broiler eggs set and chicks placed are reported for Alabama and 15 major producing states.</i></p>	<p>Weekly (Each Wednesday)</p>
<p>Alabama County Data</p> <p><i>Estimates for cattle, poultry, corn, cotton, peanuts, and soybeans are available at the county level.</i></p>	<p>Annually (Between April and June)</p>
<p>Alabama Agricultural Statistics</p> <p><i>A composite publication showing current and revised data for most reports issued during the year, including county data for major commodities.</i></p>	<p>Annually (September/October)</p>
<p>Census of Agriculture</p> <p><i>A publication that is the leading source of facts and figures about American agriculture. Conducted every five years, the Census provides a detailed picture of U.S. farms and ranches and the people who operate them. It is the only source of uniform, comprehensive agricultural data for every state and county in the United States.</i></p>	<p>Every 5 years</p>

Alabama A&M University

Alabama A&M University, Auburn University, and Tuskegee University play integral roles in training and preparing young women and men for careers in agriculture. These land grant universities work together through the Alabama Agricultural Land Grant Alliance to leverage resources for important research, outreach, and extension activities. Over the years, this Alliance has worked closely with the Alabama Department of Agriculture and Industries to better support and preserve Alabama agriculture and natural resources.

Auburn University

Tuskegee University
